

Are You Ready to Change Your Life?

Two TP's are Starting:
Fall 2011

Participation in the Philadelphia Pathwork Region Transformation Program (affectionately known as "TP") is a life-changing experience. This ten month program is an immersion into the unparalleled wisdom and spiritual practices in the Pathwork lectures and an opportunity to go deeply into those hidden places where true change can take place with a trusted band of travelers and an experienced guide.

The classes meet for one day a month from September through June for five years and one intensive residential weekend each year. They follow a comprehensive curriculum designed to allow for profound change in the intimacy of a committed group. Each individual also completes sixteen individual sessions during the year with the helper of their choice so that the work is held in many ways. While the Transformation Pathwork Program is a five year program, you are committing to participate one year at a time.

You will come away with a new experience of the sweetness of life, your own power and your own connection to the greater reality.
