Demagnetizing Negative Force Fields

Four Week Lecture Study (PWL #201)

*I am walking down the road,
and there is a hole in the road.
I fall in the hole.*

*I am walking down the road,
and there is a hole in the road.
AND I know it is there...and oh
well, I fall in it again, and
again, and again....Oh well!!*

*I am walking down the road,
and there is a hole in the road.
I know it is there, AND finally,
after much pain and suffering,
I walk around it.*

*I am walking down the
road....and I decide to
take a new road!!!*

Why do we keep walking down the same road, over and over, and keep falling into the same hole? Even when we know that it is there???? Because it is a magnetic force field that attracts us in ways that we haven't yet made conscious. Even if we HAVE made it conscious, and told ourselves over and over, "I will never do that again," there are ways NOT to repeat our negative patterns that still are eluding us...

This lecture contains a magnificent, detailed plan on how to shift this habitual pattern of landing in the "hole," and will set out all the conditions you need to know, and understand, so that you can find that new road. It will help you to answer these questions:

- What was the intention when you created this "hole"? What were the words and ideas and misconceptions?
- What is the pain that has kept this in place, and how can you safely learn how to feel it, so that you can move on?
- What is it that you really want to create now?
- Finally, how can we mobilize all of our own magnificent spiritual forces within to help us with this new creation?

(?) August lecture study.*

*Or as I like to say...
Let's Do This!!!*
